State Compensatory Education

This District has written policies and procedures to identify the following:

- Students who are at risk of dropping out of school under state criteria
- Students who are at risk of dropping out of school under local criteria
- How students are entered into the SCE program
- How students are exited from the SCE program
- The cost of the regular education program in relation to budget allocations per student and/or instructional staff per student ratio

Total SCE funds allotted to this District: **\$225,662.00**

Total FTEs funded through SCE at this District: **3.48**

The process we use to identify students at risk is:

1. Did not perform satisfactorily on TPRI (Texas Primary Reading Inventory) in Kindergarten, 1st Grade, or 2nd Grade.
2. Did not perform satisfactorily on TAKS in 3rd, 4th, or 5th, 6th, 7th, or 8th Grade.
3. Grade 7th or 8th did not maintain an average of 70 in two or more subjects in the foundation curriculum during a semester in the preceding or current school year.
4. Was not advanced from one grade level to the next for one or more school years.
5. Is not passing classes.
6. Student has limited English proficiency.
7. Student is homeless or in the custody of CPS.
8. Has been expelled during the preceding or current school year.

Students are exited from the SCE program when they no longer meet the criteria listed above.

The comprehensive, intensive, accelerated instruction program in this district consists of tutorials for students at risk, summer school, supplemental reading, math, ELA, science, and social studies classes, and an additional reading/math teacher at elementary school for six months during the school year, math intervention classes and middle school teacher, additional science teacher at high school, and Learning for Life character-building program and Wisdom character-building program to enhance student responsibility and self-esteem.

State Compensatory Education Program Program Evaluation/Needs Assessment

Upon evaluation of the effectiveness of this program the committee finds that:

- **Students are benefiting from the extra time spent with the additional reading/math teacher.**
- **Summer School is effective, especially for LEP students.**
- **Students are benefiting from the Study Island reading and math program and teacher.**
- **The 25 minute daily tutorial period is helpful in providing effective intervention instruction.**
- **Tenth grade students benefited tremendously last year from the supplemental TAKS class.**
- **Summer School is effective for students in need of assistance.**
- **Additional time is needed to review students in core areas.**
- **C-Scope Curriculum**
- **Needs for SFSF and ARRA funding**
- **Two research-based reading programs for Tier I and Tier II students who are at risk of not achieving at grade level has been implemented (Imagination Station and Headsprout) and a new math textbook is in place.**
